Bus 4x4 Pty Ltd  
138 Kerry Road  
Archerfield QLD 4108

To the Bus 4x4 Team

My wife & I (Jeanie & Peter Kelly), have just established a new tour operator business, called Murray Offroad Adventures. We are located in the semi-arid landscapes of North West Victoria.

After much searching for the ideal bus and trawling through the many web sites I finally came across the Bus 4x4 web site. The conversion of the Toyota Commuter and the Toyota Coaster provided the perfect options to give the comfort of the popular Commuter, with the ability of a Prado.

After annoying the guys at Bus 4x4 for over 12 months, I finally took the plunge and went for a conversion of a new commuter with the latest Prado undercarriage rather than second hand. Firstly, the conversion did not interfere with the new vehicle warranty and even though I'm in Mildura North West Victoria, the team at Markwell Toyota Mildura really look after me and even follow our tours on Facebook.

The bus has lived up to our expectations. The interior upgrades for mines standard gives us the reassurance of a strong, safe, durable vehicle. The variety and choices for optional extras is great. The non-slip floor, cargo frame for storage of the essential fridge and safety equipment, bull bar, snorkel and flat plate tow bar, dark lined roof and curtains for light and heat management, the built in TV/DVD with connection to all the latest communications systems allows all the facilities of the office while touring the bush.

Travel in comfort to experience internationally listed RAMSAR National Park full of many heritage values in those location the 2WD bus can't go. Drive through a unique area that changes from waterways and floodplain forests through to open pine woodlands and our dense sandy Mallee landscapes. Observe the rich diversity of plants and wildlife that thrive near the many Lakes, that most can't access while live maps on the TV/DVD player keep passengers fully informed as they travel.

Enjoy the history and natural landscapes in the comfort of our air conditioned 4WD bus - winter or summer. Rough and sandy roads or the main highway, makes no difference.

We love our Toyota Commuter 4x4, modified in Brisbane and delivered to Mildura with all the registration and road worthies taken care of. Many people comment on how great the bus is.

Thank you, Steve Hargraves and the Gang at Bus 4x4 for all your help and support. As tour operators, we totally recommend this bus.

Regards

Peter & Jeanie Kelly
