

In this newsletter, we are pleased to introduce our latest workshop updates, uncovering the impacts 4WD transport can have on organisational efficiency, off-road adventure ideas and more!

Connect with our team via our website or our social media pages for our latest updates or any enquiry.

Warm Regards,
Bus 4x4 Team.

Bus 4x4 Updates

It's June! Cold mornings, early evenings, and the World Mining Congress. Over the coming months, we will be exhibiting at several major conferences, expos, and tradeshows including the World Mining Congress, AFAC, AIMEX, and the Darwin 4x4 Show. We're excited to connect with many of our industry partners and clients at these events, and look forward to demonstrating our vehicles alongside some of the world's most innovative brands and companies.

June also means we are one month closer to revealing what and where our latest collaboration project is going. Hint: the location is home to one of the world's largest deserts. Continue to follow this journey and connect with us via our social media channels; search Bus 4x4 on [LinkedIn](#), [Facebook](#), [Twitter](#), or [Instagram](#).

From transforming the vehicle's interior to adding 4x4 capabilities with the help of our professionally engineered 4x4 Conversion Kit, our team has been working hard to build conversions that are as comfortable as they are stylish. Talk to our team today to start your Bus 4x4 journey.

The Power of Customised 4x4 Vehicles

In our latest blog, we explore how using 4WD transportation can enhance organisational efficiencies. From improving transportation safety through to increasing worker productivity, Bus 4x4's customised vehicles can improve your operations.

In the heart of the South Australian outback lies Coober Pedy, renowned as the global hub for opal mining. Should you wish to test your fortunes, a colossal pile of rubble awaits in the town's center, concealing numerous opal discoveries. However, Coober Pedy's greatest distinction stems from its scorching temperatures, prompting the majority of its inhabitants to reside in subterranean dwellings carved into caves.

Originally known for its opal mining endeavours, Coober Pedy now attracts tourists due to the diverse range of underground dwellings, several being made available to the public. Over 150 years old, the residents of Coober Pedy adapted to the hostile environment by transitioning their lives underground. The name, Coober Pedy, originating from an Aboriginal term meaning white man in a hole.

Learn more about Coober Pedy including accommodation, tours, and outback adventures. Visit: <https://www.cooberpedy.com>

While accessible via sealed highways, to make the most of Coober Pedy it is recommended to have an equipped and capable 4WD vehicle. Safety equipment such as a winch, spare tyre, extra fuel, and most importantly lots of extra water. [Bus 4x4 hire vehicles](#) are equipped for such journey's including GPS and safety accessories. Further than being equipped, they offer extra storage and power to carry all the luggage, fuel, food, and water without compromising on comfort and safety.

Keen to venture into the Australian outback? [Talk to our team](#) about our currently available hire options.

Our Story
